

AMENDMENT TO THE DRAWING(S)

Fig. 2 has been added. The attached new sheet of formal drawings includes new Fig. 2.

REMARKS/ARGUMENTS

This is a response to the Notice of Non-Compliant Amendment dated February 21, 2007.

The Notice of Non-Compliant Amendment of February 21, 2007 indicated that the Amendment filed November 3, 2006 was considered non-compliant because in the amendments to the specification, new paragraphs should not be underlined. Further, with regard to the amendments to the drawings, the Notice indicates that new Fig. 2 was not submitted. By the present Amendment the amendments to the specification have been corrected such that the new paragraph is not underlined. In addition, new Fig. 2, which is described by the new paragraph is included in the attached new sheet of drawings.

The amendment is now believed to be in compliance with all the appropriate statutory and regulatory requirements.

Reconsideration of the application is respectfully requested.
